TAKING SURVEILLANCE AND SECURITY TO NEW HEIGHTS

THE MECHANICS

- » The T.O.P. is available in two heights: 14 ft & 18 ft
- » T.O.P. is complete with an autoleveling feature, allowing it to level on various terrains
- » Onboard power is provided by two 12 V DC deep cycle batteries
- » An onboard battery charger is standard, 4 hour recovery
- » Also onboard is a gas generator with remote start making the T.O.P. independent

THE OBSERVATION POD

- » The Observation Pod is octagon-shaped and comes with eight tinted sliding windows
- » The Observation Pod is 4 ft 8 in wide inside and 5 ft 6 in long, ceiling height inside is 6 ft 2 in
- » The interior has carpeted walls and a rubber mat floor
- » The Observation Pod is rated for 500 lbs of additional weight
- » The Pod has aluminum exterior walls and 2 in foam insulation for maximum officer comfort
- » The interior is kept comfortable with an AC/heater unit
- » Two 120 V electrical plugs are standard in the Pod
- » The exterior of the Observation Pod is equipped with floodlights
- » For safety, the Pod sounds an alarm during decent and also has flashing safety lights

SAFETY FIRST

- » Safety features include: Programmable Logic safety systems, push-to-enable functions, emergency lowering valve, emergency stop, overload alarm, visual and audible alarms, low battery alarm and out-of-level alarm

OPTIONAL ADDITIONS

- » SILENT DRIVE can customize your T.O.P. with additional features such as: surveillance cameras, thermal imaging, wind speed indicator, power line warning system, communication equipment, a public address system and additional lighting!
